THREE NEW LUXURY RUG DESIGNS ARE HOMAGE TO ARCHITECT OSCAR NIEMEYER

Britto Charette Unveils A New Collection Of Rugs In Collaboration With Luxury Rug Maker Kyle Bunting

MIAMI, FL: Miami designers Jay Britto and David Charette, of the award-winning Miami interior design firm, **BRITTO CHARETTE**, announce the launch of **BRASILIA**, a collection of luxurious hide rugs created in collaboration with esteemed rug maker, Kyle Bunting. Handcrafted in Bunting's Austin, Texas studio, the designers' latest collection is comprised of three fully-customizable rugs: MIKA, BIOTA, and FLORA.

The **BRASILIA** Collection is the second collaboration between Britto Charette and Kyle Bunting and was inspired by David Charette's trips to Brasilia and the many installations and buildings by renowned Brazilian architect, Oscar Niemeyer, that he visited and admires.

The MIKA rug from the Brasilia Collection

"In 2020, I visited Brasilia after a long recuperation from a near-fatal case of COVID that had left me with a temporary partial paralysis in my dominant hand--something that was really challenging for me as an artist," said David Charette. "Brasilia's modernism and textures, its showcase of stunning Niemeyer architecture and glorious geometry, inspired me and gave me the confidence to begin sketching again. The **BRASILIA Collection** is the tactile representation of my experience in Brasilia--a love letter to the city and architect that helped me heal."
